MONGU MUNICIPAL COUNCIL

PRESS RELEASE

(FOR IMMEDIATE USE)

MONGU COUNCIL PROCURES EARTH MOVING EQUIPMENT

18th December 2023 - Mongu Municipal Council has procured Earth Moving Equipment that includes a Motor Grader, A Water Bowser, a Backhoe Loader, and a Roller Compactor valued at over K8, 000, 000 under the 2023 Constituency Development Fund (CDF) allocation.

The Local Authority recently awarded SARO AGRO Industrial Ltd a contract for the supply and delivery of a Motor Grader, at a cost of K2, 950,000, a Water Bowser at K2, 150,000, and a Backhoe Loader at K 1,800,000 respectively. The Council also awarded SDLG Investments Ltd a contract for the tender to supply and deliver an Earth Roller Compactor at a cost of K1, 756,500.

The equipment is currently undergoing registration, which involves the allocation of number plates in Lusaka. As soon as the registration exercise is completed, the Equipment will be delivered to Mongu.

This is a great milestone for the residents of both Mongu Central and Nalikwanda constituencies owing to the poor road network.

The Local Authority is excited and hopeful that the procurement of Earth Moving Equipment will help cushion the challenges of inaccessible roads and accelerate the rehabilitation of most feeder roads in the district.
